

FLAGSHIP COMPREHENSIVE PROGRAM

Complete Market Mastery Program

A one-year journey from advanced market knowledge to disciplined personal mastery.

25 LESSONS | 125 TOPICS

Financial Literacy is Everyone's Right.

Educational program. Market participation involves risk.

Built for serious, structured learning

A comprehensive framework combining advanced market theory, strategy development, risk management, performance discipline and personal mastery.

ONE-YEAR LEARNING PATH

A staged curriculum designed for progressive understanding, practice and review.

25 CURATED LESSONS

Twenty advanced market lessons followed by five personal-mastery lessons.

125 VIDEO TOPICS

Five focused learning topics in each lesson, supported by detailed written guidance.

PRACTICAL ASSIGNMENTS

Daily application tasks encourage evidence-based practice and structured journaling.

WHO THIS PROGRAM IS FOR

A comprehensive pathway for committed learners

- Learners seeking an integrated view of technical, market-structure and strategy frameworks.
- Traders who want to move from scattered setups to a defined, rule-based process.
- Market participants who want stronger risk management, review and performance discipline.
- Learners ready to develop focus, habits, resilience and responsible decision-making.

Learning approach

Concept clarity -> contextual analysis -> rule definition -> practical assignment -> journal and review. The program teaches educational frameworks, not tips, calls or guaranteed outcomes.

Advanced Market Mastery

Build advanced analytical understanding while keeping risk, invalidation and evidence at the centre of every decision.

01

Professional Trading Framework

Research process, regimes, structure, liquidity, volatility and invalidation.

02

Advanced Market Structure

External and internal swings, continuation, transition, compression and failed breaks.

03

Advanced Supply and Demand Theory

Imbalance, departure, base quality, freshness, arrival and remaining liquidity.

04

Advanced Volume Spread Analysis

Volume, spread, close location, background and next-bar confirmation.

05

Wyckoff and Composite-Operator Logic

Accumulation, distribution, cause and effect, effort and result.

06

Elliott Wave Foundations

Impulse and corrective scenarios, hard rules, proportionality and alternatives.

07

Advanced Elliott Wave Structures

Extensions, diagonals, flats, triangles, combinations and Fibonacci relationships.

08

Liquidity and Order-Flow Logic

Sweeps, inducement, displacement, acceptance and rejection.

09

Multiple-Timeframe Trade Architecture

Strategic context, setup location and execution trigger.

10

Fibonacci, Geometry and Measured Moves

Consistent anchors, retracement, extension, projection and symmetry.

Advanced Market Mastery

Build advanced analytical understanding while keeping risk, invalidation and evidence at the centre of every decision.

11

Advanced Momentum and Volatility

Divergence, compression and expansion at structural locations.

12

Volume Profile and Auction-Market Theory

Value migration, POC, HVN, LVN, acceptance and rejection.

13

Advanced Intraday Strategy

Session context, opening behaviour, liquidity and strict daily risk controls.

14

Advanced Swing Strategy

Weekly and daily regimes, sector strength, structure and overnight risk.

15

Long-Term Position Strategy

Secular trends, business context, valuation awareness and portfolio risk.

16

High-Probability Setup Engineering

Defined regime, location, trigger, invalidation, costs and expectancy.

17

Options Hedging and Portfolio Protection

Match hedges to exposure, horizon, volatility and acceptable drawdown.

18

Advanced Multi-Leg and Tactical Hedging

Defined-risk structures, volatility, decay, liquidity and margin.

19

Trade Management and Performance Analytics

MAE, MFE, expectancy, drawdown, open risk and portfolio heat.

20

Mastery, Psychology and One Trading System

Consistency through one system, controlled risk and deliberate review.

Personal Mastery and Life Coaching

The final stage strengthens focus, habits, discipline and emotional resilience for responsible, sustainable progress.

LESSON 21 / START

Begin Your Transformation Journey

Personal purpose, honest baseline and a realistic one-year roadmap.

LESSON 22 / FOCUS

Meditation, Focus and Mental Clarity

Attention, emotional awareness and comfortable wellbeing practices.

LESSON 23 / HABIT

Master Your Habits

Habit loops, environment design, tracking and recovery after missed days.

LESSON 24 / GOALS

Goal Setting and Self-Discipline

90-day goals, scheduled priorities, boundaries and weekly review.

LESSON 25 / RESET

Emotional Mastery and Resilience

Manage fear, greed and setbacks without allowing emotion to control decisions.

What learners can expect

A disciplined learning experience with clear structure, practical work and regular self-review.

ADVANCED THEORY

Detailed concepts across structure, VSA, Wyckoff, Elliott Wave, liquidity, volume profile and strategy design.

MULTI-HORIZON STRATEGIES

Intraday, swing and long-term frameworks with context, setup, trigger, invalidation and risk rules.

HEDGING FRAMEWORKS

Options-based protection and defined-risk structures introduced through suitability, cost and risk awareness.

PERFORMANCE DISCIPLINE

Assignments, journaling and analytics help learners review process quality rather than chase outcomes.

PERSONAL MASTERY

Meditation, habits, goals and emotional resilience support more deliberate learning and decision-making.

GUIDED ADMISSION

Admission is through counselling so program suitability and learning expectations are understood clearly.

IMPORTANT

High probability never means guaranteed profit

Every strategy is presented as an educational framework with defined risk and invalidation. Financial markets involve uncertainty and loss of capital is possible.

TAKE THE NEXT STEP

Book Admission Counselling

Understand program suitability, learning expectations and the complete one-year journey before admission.
